

Participation Agreement

Our facility would like to participate in the atom Alliance National Nursing Home Quality Care Collaborative (NNHQCC). atom Alliance is a regional, quality improvement initiative. Members of atom Alliance are IQH (Mississippi), AQAF (Alabama), and Qsource (Indiana, Kentucky and Tennessee).

We understand the following expectations for this cooperative project, and agree to participate. We understand that this commitment requires support of facility leadership in the following areas:

- Agree to remain active in Phases I and II of the collaborative throughout the 2014 to 2019 project cycle and to publicly disclose participation in the National Nursing Home Quality Care Collaborative.
- Support development of strategies for overall quality within my organization, by working to:
 - Collect, submit and share outcome and process data as required to achieve NNHQCC objectives
 - Identify opportunities for improvement
 - Address gaps in systems through planned interventions in order to improve the overall quality of care
- Form an interdisciplinary team to work with atom Alliance on systems impacting quality of care and to improve systems of care in areas identified for improvement.
- Submit requested data or reports to support collaborative efforts.
- Participate in educational sessions, collaborative sessions, and conference calls or webinars.
- Share results, best practices and lessons learned.
